Implementation:

Learning outcomes during training in experimental (molecular) cuisine, which took place in Valencia on 20-26.03.2018 as part of the InnoGastro project.

For example, including elements of the course for your firm. Inclusion of specific contents, solutions or dishes from experimental cuisine in your firm menu (please write the dishes which you use or will use in your offer firm).

Please list and provide implementation activities (planned activities):

Molecular cuisine elements are used in CIOP CIOP culinary studio during various occasional events: birthdays, weddings.

In the attachment, please attach a description of the content (recipes) and photos of experimental cuisine that will be implemented in your firm.

Tartar and Coral Tuile (with Carbon)

Add 30 g refined flour, pinch of salt, 100 g refined oil, 200 ml of water and carbon. Mix all ingredients properly. Then heat a non-stick pan and pour some mixture on it. Lower the heat and let the flour get cooked. Later remove the excess oil from pan and flip the tuile up side down. When it get properly cooked, remove it on tissue paper and your tuile is ready as garnish.
