

This project is funded by the European Union

Implementation:

The effects of education during training with a flexible approach to nutrition using a plant-based diet - flexitarianism, which took place in Bialystok on 16-22.05.2022 as part of the Flexiplant project.

Example: Incorporation of course elements into school activities. Including specific content, solutions and techniques for gastronomy using a plant-based diet in the theoretical or practical program of vocational subjects (please list the subject and class profile) in the school curriculum.

Please list and provide implementing actions (planned actions):
